Online Cash Deposit Facility Now Available At Citibank ATMs

Dear

Citibank

Customer!

We are pleased to announce that since April 10, 2007, Citibank has been installing new ATMs that offer online and instant* credit for ruble cash deposits. The new service is already available from ATMs located in "[Paveletskoe](#)", "[Krasnye Vorota](#)", "Na Sadovoy-Karetnoy" and "[Na Myasnitskoi](#)" Branches.

Our new ATMs, which are marked with a special green sticker, enable you to deposit rubles into any of your ruble accounts with Citibank online, **free of charge**, and without envelopes.

To make an online cash deposit, you need to use:

- your Citibank debit card (for deposits into your current, savings or credit card accounts);
- your Citibank [credit card](#) (for paying into your credit card account).

The number of Branches with the new ATMs that offer online and instant* credit for cash deposits will be growing. The list of such Branches can always be found on our [Branches and ATMs page](#).

We hope that the new facility will save your time and make [credit card](#) and [loan](#) repayment more convenient.
