SMS messages to Skylink customers

Dear customers!

Please be informed that due to technical enhancement on ZAO Delta Telecom side starting **from July 2011** Citibank SMS communication (all Citibank SMS services, including [Citibank Alerting Service](#), SMS with passwords for e-commerce transactions execution as part of [3D Secure service](#) etc.) **will not be performed** to Skylink customers due to absence of possibility on ZAO Delta Telecom side to send such messages using 2582 number.

Please note that password (for e-commerce transactions execution as part of [3D Secure service](#)) delivery method can be changed from SMS to e-mail. To change password delivery method please contact [24-hour CitiPhone Banking](#):

+7 (495) 775-75-75 in Moscow,
+7 (812) 336-75-75 in St.Petersburg,
8 (800) 700-38-38 for other RF cities.

Sorry for any inconveniences.

With best regards,
ZAO Citibank
