### **ZAO Citibank Donations Save Children's Lives**

ZAO Citibank recently donated funds to "Lifeline" Program for children in dire need of special medical attention ([www.life-line.ru](http://www.life-line.ru)).

Four children from different Russian cities underwent medical treatment financed out of the funds donated by ZAO Citibank staff to Lifeline.

Fifteen-year-old Lena K., from Chita, who had suffered from arrhythmia, had an operation on cardiostimulator installation. The doctors said the girl was feeling better and had already returned home.

Six-year-old Emily R., from Moscow, is recovering after a successful cardiac malformation treatment.

Recovered are Yulia U., three years old, from the town of Apatity, Murmansk Region, and Daniil M. from Tatarstan, who had also suffered from heart conditions.

The Lifeline management and the children's parents are grateful to the staff of ZAO Citibank, whose involvement and benevolence helped the four young Russians to receive efficient medical aid and return back to their normal lives.
