Last week, ZAO Citibank and MasterCard announced the results of their regular joint campaign "Buy More With Citibank MasterCard Credit Card - Increase Your Chances of Winning a Trip to the Emirates!" which was held on July 15 - August 31. This time, the prizes were awarded to two Citibank customers - Andrei Zagorsky, an investment company head and Igor Sakov, a logistics specialist, both from Moscow. Each received a prize - a weekend for two in a five-star Jumeirah International network hotel in the United Arab Emirates.

"Participation in this campaign was very easy and simple; as I used my credit card to pay for goods and services, bonuses were accumulated. And as the time of the campaign coincided with my vacation, I could fully appreciate the advantages of a

Citibank credit card while traveling" said Andrei Zagorsky.

The campaign was a continuation of the Citibank MasterCard joint programme. Last December, Citibank credit card holders were offered the unique opportunity to win a weekend trip to Paris, and in March-April they were given the opportunity to win tickets to the UEFA Champions League Finals in Istanbul.

The awards ceremony was held in Citibank's Pokrovka Branch. Congratulating the winners, Selim Ergoz, Vice President, Credit Cards Product Head said: "We are trying to make our customers feel comfortable in any part of the world and assure them of the most innovative and safest products and services, including Citibank credit cards."
